

Gabriel Rivera

Seeking an entry-level position in the computer science industry.

Email: gabrielrivera457@gmail.com

Portfolio: gRivera3663.github.io

Education

California State University, Fullerton / Bachelor of Science in Computer Science

August 2016 – Present (Graduation Date: May 2021), Fullerton, CA

Santa Ana College / A.A. Liberal Arts

August 2012 - June 2016, Santa Ana, CA

Projects

Recipe App

- Built an iOS application where you can search for recipes, and then add the ingredients of those recipes onto a grocery list.
- Was the final group project for my Swift Programming class.
- Primarily focused on the Storyboard, displaying information from API to the application, and front-end.
- Utilized the Spoonacular API.
- Used Swift and built with XCode

Wave Bot

- Built a Discord bot for my personal Discord server.
- The bot plays sounds in voice channels, displays text in text channels, directly messages other users, and can share songs from Spotify.
- Utilized DiscordJS, NodeJS, and other various tools.
- Used JavaScript and built with VSCode.

Soft Skills

- Teamwork
- Communication
- Time and pressure management
- Flexibility

Skills

- C++
- Python (Django)
- Swift
- JavaScript (DiscordJS, NodeJS, Firebase)
- HTML
- Microsoft Office
- **Operating Systems:** Windows and macOS

Work Experience

Tech Consultant

July 2018 – Current

Target

- Performed audits on products currently on the sales floor and in stockroom.
- Used knowledge of electronic products in order to help customers find and then inform them about specific products
- Trained new tech consultants about various job-related operations
- Worked as a leader, independently, and in part of a team for various tasks
- Used communication skills to speak to customers during both negative and positive interactions
